NUOCESS NC200 BASEBOARD & CONVECTION HEATERS | NC200A-P20/P25

ZheJiang Nuociss HVAC Technology Co.,Ltd.

- The Nuociss company are NEEQ listed enterprises in China, Specialized in designed steel radiator; Towel rail radiators; convectors manufacturing, Headquarters located in ChangXing, Nuociss industry zone, and is about 23 acre area, Factory building area around 538,200 sq.ft With annual output more than 500,000 units of various radiators.
- Nuociss focus on HVAC solutions for the world. To develop comfort, reliability, and energy efficiency Heating Technology. We bring warmth to millions and millions of people when needed. Our technology accompany every longest winter night, Nuociss care what you feels.
- Nuociss build strong partnerships with all our customers, partners and suppliers. We make best quality products, We got thousands of hardest workers, most professional R&D groups, We listen carefully to the market.

Baseboard & Convector

Clean & inconspicuous

quiet, safe & energy efficient

- All aluminum body, luxurious quality
- Baseboard shape, warm bottom up airflow, comfortable and efficient
- Convection heat structure, X shape heat element, rapid warm up
- Multifunctions (Intelligent timer; Frequency conversion; Rapid heating; Voice function)
- Multiple protection (Double anti-hot insulation; Toppling power off; Overheating power off; Child lock)
- Mobile phone APP smart control

Dimension:1560X190X105mm(2500W)
1354X190X105mm(2000W)

NC200 BASEBOARD & CONVECTION HEATERS | NC200A-P20/P25

3 Generation **X-PLUS**

32m² heating core
Coverage area
Strong convection technology

Intelligent Frequency

Conversion Control

Energy conservation **50%**

Anti airflow mark

All aluminum body

X-Plus heater

Convection structure

Frequency conversion

■ **All aluminum body**

Control panel / back cover/ side cover/ leg/ heat fins, all body made of aluminum. (2.8mm thickness), sequire high quality. Integrated appearance, seamless butt joint, moisture-proof and rust-proof, bright and durable appearance.

■ **Anti airflow mark**

Air outlet optimization design, prevent hot air convection mark on wall, wallpaper, curtain etc.

■ **3 generation x-plus heating core**

High performance stainless steel inner heat elements is more resistant to high temperature and has longer service life.

■ **Space-saving**

Baseboard design require very little space and are inconspicuous, is more suitable for modern household environment such as French window.

All aluminum body
Thickenss 2.8mm

■ **Functions:**

- | | | | |
|--|---|---|---|
|  Aluminum body |  Baseboard structure |  Convect structure |  Rapid heating |
|  Intelligent timer |  Voice Function |  LCD touch panel |  Frequency conversion |
|  Frost prevention |  IP24 water Proof |  Child lock |  Overheating power off |
|  Double anti-hot insulation |  Topping power off |  Remote control |  APP control |
